

# **Business Subsidy Policy**

Public Hearing Held  
&  
Policy Adopted

January 27, 2009

## **I. Introduction**

This Policy is adopted for the purposes of the business subsidies act (the “Act”), which is Minnesota Statutes, Sections 116J.993 through 116J.995, as amended. Terms used in this Policy are intended to have the same meaning as used in the Act, and this Policy shall apply only with respect to subsidies granted under the Act if and to the extent required thereby.

While it is recognized that the creation of good paying jobs is a desirable goal that benefits the community, it must also be recognized that not all projects assisted with business subsidies derive their public purposes solely by virtue of job creation. In addition, the imposition of high job creation requirements and high wage levels may be unrealistic and counter-productive in the face of larger economic forces and the financial and competitive circumstances of an individual business.

The City further believes that each economic development opportunity offers its own unique benefit to the community whether it be retail, commercial or industrial in nature. These benefits may be in the form of added tax base, new or retained jobs, higher incomes, overall investment in the area, business diversification and / or increased economic activity and vitality.

The Hutchinson Economic Development Authority was established in order to promote job creation, redevelopment and investment in the community as well as to expand the city’s tax base and diversify the city’s industrial, commercial and retail base.

To effectively promote economic development within the city, be competitive vis-à-vis other communities and meet the diverse needs of business and industry, the EDA must have use of all the economic development incentives and tools legally available to it. The use of these incentives and tools cannot be judged nor can they be provided by a single measure, but must rather be evaluated in terms of community need, market trends, job creation, capital outlay and / or technology.

## **II. Intent to Retain Flexibility**

Because it is not possible to anticipate every type of project that may provide benefit to the City, the City shall retain the option to amend or waive sections of this policy when it is determined to be necessary and / or appropriate. Minnesota Statute 116J.994, Subd. 2 allows the City to deviate from its criteria by documenting in writing the reason for the deviation and attaching a copy of the document to its next annual report to the State.

## **III. Business Subsidy Public Purpose**

Business Subsidies shall be provided in order to achieve the following public purposes:

1. Enhance the economic diversity of the city
2. Create high quality job growth
3. Provide for job retention
4. Stabilize the community
